“The Web is for audience **reach** and native apps are for **rich** experiences. Both are strategic. Both are valuable. So when it comes to mobile, it's not Web vs. Native. It's both.”

- Luke Wroblewski

# Hitting all these platform is hard

- Multiple codebases
- Fragmented platforms
- Multiple language choices and IDEs
- Keeping features in sync

# Mix Well

# LE MENU

## Appetizer

*Amuse-bouche for web and mobile*

## Entrées

*A delicious UI*

*Tasty CSS styles*

*Service tier with a smile*

*Savory Router with Navigation*

*A taste of Native*

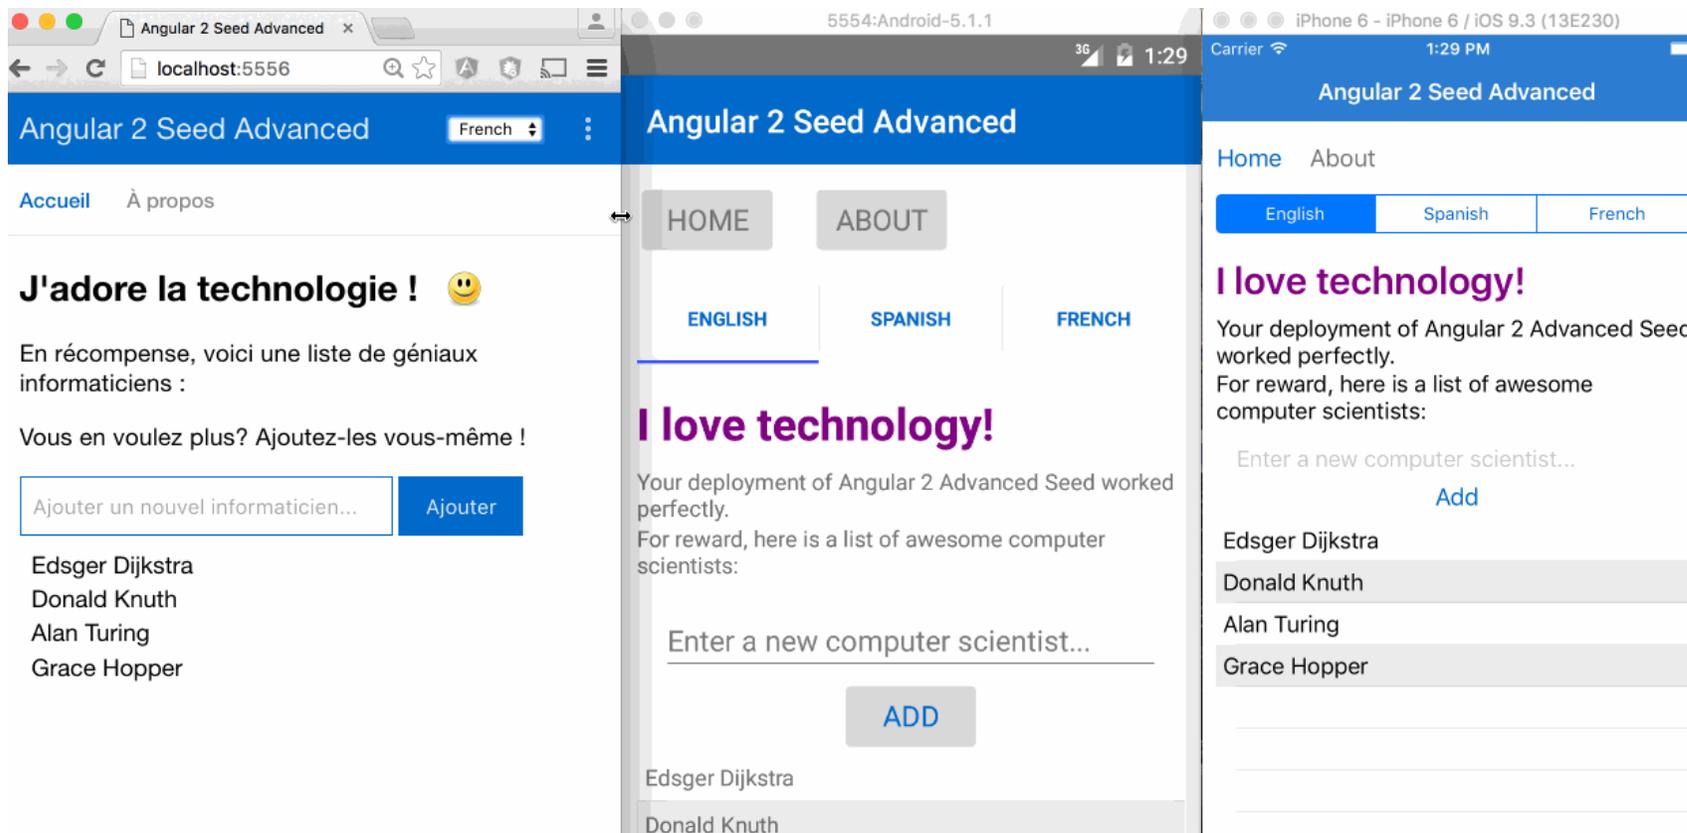

## Dessert

*Seed Project Surprise*

# Angular 2 advanced seed

- <http://bit.ly/nativescript-angular-seed>

# Prizes!

# Try it for yourself!

- 1) Visit [nativescript.org](https://nativescript.org) and click Get Started!
- 2) Follow [@nativescript](https://twitter.com/nativescript) on Twitter.
- 3) Come to our workshop tomorrow.
- 4) Reach out! [@tjvantoll](https://twitter.com/tjvantoll) and [@jenlooper](https://twitter.com/jenlooper) on Twitter.
